## Quitters Succeed with Laser Therapy

Our unique Laser Therapy effectively controls cravings by stimulating the nerve endings to produce endorphins (Nature's mood lifter and pain reliever).

When used on particular points on the ears, face and hands, Laser Therapy balances endorphin levels and leaves you feeling wonderfully relaxed.

WITH LASER ACUPUNCTURE  
THE QUIT SMOKING CURE

- Quit smoking in as little as two (1) hour treatments.
- Laser Light Therapy is a highly effective technique that uses light energy to stimulate acu-points on the ear and body, eliminating the urge to smoke.
- It is a non-medical procedure respected by many physicians as a highly effective treatment.
- Laser Therapy program will reduce or eliminate the physical withdrawal symptoms and cravings associated with nicotine addiction.
- Cravings are removed by stimulating nerve signals.
- The Treatment is safe, painless, relaxing and effective.
